Dear Municipal Official,

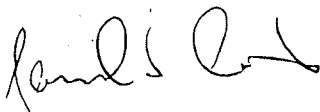

We appreciate serving your community and we trust 2012 was a prosperous year. Due to a Pennsylvania Department of Environmental Protection (DEP) mandate, we must alert you to this change in law going forward. **The Covered Device Recycling Act 108 (CDRA) now prohibits the following electronic devices from disposal at DEP permitted solid waste landfills: desktop and laptop computers, computer monitors, computer peripherals, and televisions. As of January 24, 2013 this ban will go into effect. On bulk collection days in your community should any of these items be at curbside they will be tagged as non-collectible.**

In going forward, the following steps can be taken to address the handling and processing of these devices.

- 1) Manufacturers and retailers are now required to make collection programs for consumers available at their outlets.
- 2) Mascaro will have drop off closed containers for individual use at our facilities throughout eastern Pennsylvania on advertised days throughout the year.
- 3) Mascaro will work with your municipality to provide on-site covered containers for publicized collection days starting in the spring of 2013. Details of course can be worked out with my office.

I have attached the DEP explanatory fact sheet for your perusal. Should you have any further questions please advise.

Sincerely,

Samuel J. Augustine
Director of Sales
